Nakarin Chomphuka

Mueang Chiang Mai, Chiang Mai | namekung951.15999@gmail.com | 063-734-1379 | github.com/nakarinnn

EDUCATION

Chiang Mai University | BS Computer Science   **Expected May 2025**

   • Cumulative **GPA**: 3.33/4.00

TheeraKarnBanhong School   **2020 Graduated**

PROJECTS

CS-Support | Line Application Development
Sep 2023 - Oct 2023
   • Developed a support platform, integrated swift repair reporting, ensuring prompt issue resolution and optimizing user experience for efficiency
   • Utilized Google Script to establish seamless connections between LINE user data and repair request information stored in MongoDB, ensuring real-time updates and accurate data retrieval.
   • Developed a system to synthesize MongoDB data into Google Sheets, allowing for comprehensive analysis and reporting.

ShoePee X | Website Development
Feb 2023 - Mar 2023
   • Developed a web application for an online shoe ordering platform, incorporating product recommendations based on stock availability.
   • Implemented a robust shopping cart system with real-time price calculation for items in the cart.
   • Integrated Google OAuth for secure user authentication, enhancing the overall login process.
   • Collaborated with a development team using GitHub, facilitating version control and code collaboration.
   • Implemented Docker to maintain consistent development environments, streamlining the deployment process.

Synonym Quiz Game | Object-oriented programming
Jan 2022 - Feb 2022
   • Developed a synonym quiz game using Java that allows users to test their vocabulary skills by matching words with their synonyms.
   • Utilized Java programming concepts such as object-oriented programming, data structures, and algorithms to create an efficient and user-friendly game.

TECHNICAL SKILLS

Languages: Python, Java, C/C++, HTML, JavaScript, Golang
Database Management: MySQL, MongoDB
Frameworks/libraries/tools: Flask, jQuery, Docker, Google Sheets, Line OA, Line Developers, Git

ACHIEVEMENTS

CP-Lotus Hackathon
Sep 2022
   • Ranked 1 on CP-Lotus Hackathon at Chiang Mai University
   • Developed an application using Android Studio for a tablet integrated with a shopping cart for scanning products and processing payments.

The Thailand Cyber Top Talent 2023
Sep 2023
   • Participated in Thailand Cyber Top Talent
   • Top Talent 2023 competition at the higher education level cyber security knowledge competition.
